Projects

ScareBnB - *React.js and Rails*   Live | GitHub
Web app for leasing haunted locations.
➔ Built using React frontend with Flux architecture.
➔ Integrates Google Maps API for mapping and location-based search.
➔ Haunt Form allows users to submit locations to the map.
➔ Posts user listings and images to the map display.

Trapped! - *Javascript*   Live | GitHub
A unique educational drill requiring quick thinking.
➔ Built on HTML5 Canvas for higher performance graphics.
➔ Content selection allows users to choose materials to study.

ZADT - *Ruby*   Live | GitHub
An abstract data types gem.
➔ Contains data types not included in standard Ruby library.
➔ Includes Help functions to inform users of functionality.
